

Christopher Perdriau

University of Illinois Urbana-Champaign
chp5@illinois.edu

Education

University of Illinois Urbana-Champaign Computers Science, Ph.D. — 2026

Advisor: Colleen M. Lewis

Oregon State University, B.S. in Computer Science with a minor in Psychology — 2021

Advisor: Margaret M. Burnett

Awards

National Science Foundation

Graduate Research Fellowship Program (NSF GRFP) — 2021

University of Illinois Urbana-Champaign

Broadening Participation in Computing Graduate Fellowship — 2022

Ray Ozzie Computer Science Fellowship — 2022

Publications

Teaching and Mentoring

University of Illinois Urbana-Champaign

Instructor of Record - Accessibility, Technology, and Society. Fall 2026

- Designed a new course on accessibility in CS.
- Developed over 30 original online lectures and assignments focused on teaching students about models of disability, technoableism, and laws surrounding accessibility.

Teaching Assistant - Introductory CS. Spring 2024

- Led three lab sections.

- Developed student's Python and Excel knowledge.

Teaching Assistant - User Interface Design. Fall 2023

- Led one lab section.
- Wrote midterm and final exams and independently facilitated a weekly lab to develop students interface design skills.

Student Ambassadors/Research Scholars Mentor. Fall 2022 — Spring 2023

- Mentored 30 undergraduate students in a research seminar.

Teaching and Mentoring (continued)

Remote Mentorship. Summer 2023

- Mentored an undergraduate student contributing to my research paper.
- Provided guidance on research methodology, data analysis, and academic writing.
- Coordinated remotely, supporting their development in CS Education research and interest in graduate school.

Graduate Mentorship. Fall 2023 — Current

- Provide weekly feedback to graduate students on their writing, data interpretation, and research planning.
- Delegate research responsibilities to students contributing to my ongoing projects.
- Offer mentorship on professional development, including communication with faculty and navigating graduate school challenges.

Upward Bound

Instructor - Federally funded online high school introductory CS course. July 2022

- Taught first generation students from low-income families about variables, loops, lists, and functions in Python using the TunePad tool.

Oregon State University

InclusiveMag Instructor. Fall 2018 — Summer 2021

- Taught software teams and undergraduate computer science majors how to use the GenderMag Method.

Science and Engineering Mentor. Summer 2017 & Summer 2018

- Mentored high school students (Grades 9–12) through the scientific research process.
- Provided support in formulating research questions, designing user-studies, and analyzing results.
- Fostered interest in HCI by guiding students through hands-on projects.

Presentations and Invited Talks

- C. Perdriau.** (2024) Rethinking Computer Science Education: Making it Accessible for Deaf and Hard of Hearing Students. *Talk presented at the 26th ACM SIGACCESS Conference on Computers and Accessibility (ASSETS '24).*
- K. George, M. Saffar-Perez, and **C. Perdriau.** (2023). Addressing the Faculty Shortage in Computing: Examining Interest in the Computing Professoriate. *Paper presented at the annual meeting of the American Educational Research Association.*
- K. Isenegger, **C. Perdriau**, P. Bruno, and C. M. Lewis. (2023). Evidence for Devaluation Theory across CS job occupations. *Paper presented at the annual meeting of the American Educational Research Association.*

Presentations and Invited Talks (continued)

- C. Perdriau** and M. Burnett. (2021). The Emerging SESMag. *Talk presented at the Pacific Northwest National Laboratory. (virtual)*
- C. Perdriau** (2019). Engineering Gender-Inclusivity into Software: Ten Teams' Tales from the Trenches. *Poster presented at the Celebrating Undergraduate Excellence Conference, Oregon State University.*

Workshops

- V. Ojha, A. Watkins, **C. Perdriau**, C. M. Lewis. (2026) Transparent Teaching. In *Proceedings of the 57th ACM Technical Symposium on Computer Science Education.* (SIGCSE 2026).
- C. M. Lewis, M. Fong, M. Fowler, K. Isenegger, V. Ojha, **C. Perdriau**, and Mariam Saffar Perez. (2023). Using Physical Models of Java to Make Abstract Concepts Concrete. In *Proceedings of the 54th ACM Technical Symposium on Computer Science Education V. 2* (SIGCSE 2023). Association for Computing Machinery, New York, NY, USA, 1186.
- C. M. Lewis, **C. Perdriau**, and K. Isenegger. (2022). Using Physical Models of Java to Make Abstract Concepts Concrete. *Workshop presented at WeTeach_CS Summit.*
- K. George, M. Fong, V. Ojha, M. Fowler, **C. Perdriau**, C. Lewis. (2021). Strategies for Building Momentum and Buy-in for BPC Efforts. *Workshop presented at the Tapia Conference.*

Service and Volunteering

University of Illinois Urbana-Champaign

Broadening Participation in Computing Outreach Committee. Fall 2022 — 2024

- Helped plan and present CS-related activities at local K-12 schools.

Broadening Participation in Computing Engagement Committee. Spring 2022

- Planned Town Hall meetings and encouraged participation in training about BPC and inclusive teaching.

Outreach Coordinator for the American Sign Language Club. Fall 2021 — Fall 2024

- Led ASL tutorials and coordinated events with the local Deaf community.

CS Education reading group. Fall 2021 — Current

- Participated in weekly meetings to select and discuss current research papers in CS Ed.
- Facilitated critical discussions with newer graduate students, emphasizing strengths and weaknesses of academic papers.
- Provided mentorship on how to write constructive, analytical paper reviews.
- Fostered a collaborative environment for developing academic reading, critique, and discussion skills.

Service and Volunteering (continued)

Oregon State University

Radio DJ. Fall 2019 — Summer 2021

- Co-hosted an educational radio show on KBVR-FM about different musicians covering how and why they started their careers and their impact on the genre and industry.

Skills Used in Research

Technical skills

- R and Python (for statistical analysis and data visualization).
- Accessibility and inclusive design.
- Usability engineering and human-centered design principles.
- Cognitive psychology applied to interaction design.

Methods and Analysis

- User research: interviews, surveys, field studies, and diary studies.
- Usability testing: A/B testing, heuristic evaluation, think-aloud protocols, cognitive walkthroughs.
- Quantitative analysis: descriptive and predictive statistics.
- Qualitative analysis: Interrater-reliability, open coding, thematic analysis.
- Pre/post study design.

Domain-Specific Knowledge

- HCI theory and education theory.
- Programming education research.
- Education technology design.
- Curriculum design and evaluation.
- CS education Pedagogy.
- Sociocultural frameworks.
- LMS (Canvas)
